

SeaRanger 50 Trawler (2010-)

Brief Summary

With the SeaRanger 50's semi-displacement hull, you can cruise to your destination at speeds in the low 20 kt range and then pull back to a more sedate 8-10kts and spend days exploring the area. With high bulwarks and beefy rails, she has a good seakeeping mission statement, and her interior allows for a choice of either two or three cabins, depending on your intended use. All of this while keeping with a traditional tri-cabin cruiser profile, as opposed to a more traditional trawler look. Hence, the absence of features such as a Portuguese bridge.
