An Innovative Beauty

Carver’s 360 Sport Sedan is an innovative beauty. You can see and feel the close attention to details that Carver has poured into her with every step while aboard. The stainless-steel cleats on the swim platform are even unique, as they sit recessed into the vessel.

The cockpit of the 360 Sport Sedan is lengthy, measuring six feet and can be set-up with your choice of patio furniture and deck chairs. There is ample room to entertain as you cruise on the open water. Sturdy, molded-in steps, a Carver staple, lead to both side decks from the cockpit. A cockpit lazarette lies underneath a snap-in carpet and offers easy access to the business end of things such as the running gear and generator. It’s nicely laid out, color-coded, and there is plenty of room to mount a Kohler genset.

Carver uses more of its molded steps to take you to the flybridge where you are ready to take charge. At the helm we found a stylish dash, large drink holders, and plenty of room for dash mounted electronics. Full Raymarine electronics with single lever controls and tilt steering make the task of cruising simply effortless. The captain’s swivel chair is perfectly centered between the surrounding companion seats.

A very impressive feature on the 360 is the interior space. They have maximized the interior area by

extending the salon all the way out to the hull side and put the side decks on top. The main salon looks like a flying bridge motoryacht with a unique layout. It is a straight walk on one level to the forward living space. All of the woodwork on the 360 has a hand rubbed cherry finish. It's simply gorgeous.

To port is an L-shaped galley that is nicely set-up with a big single stainless-steel sink, 2-burner electric Princess cooktop, Sharp microwave, Black and Decker coffeemaker and refrigerator/freezer. After preparing the food, there is a remarkable dinette skylounge with a panoramic view and lots of natural light.

Underneath the salon, lies the engine room. We found it easy to check the oil and other fluids. The engine is very clean and nicely installed with easy access to the battery switches.

The forward stateroom contains a centerline island berth. This cabin is loaded with storage with 6 cabinets lining the full size bed. There are windows that open on the hull side and an escape hatch above that gives you the option for fresh air and natural light. To starboard is a hanging locker with deep storage.

The guest cabin is located underneath the raised dinette. There are two single berths with storage below. There are also huge lighted storage lockers located on the starboard side that provides your guests all the room they need.

From top to bottom, forward and aft, the 360 Sport Sedan is one of the most complete boats in its class.
