

Hydra-Sports 2000 CC (2009-)

Brief Summary

Not surprisingly, in the highly competitive field of center consoles, the brand with the lowest price also has the highest sales. But what is even more surprising is the fact that the second highest selling brand has one of the highest price points! What does this mean? Without putting too fine a point on it, it simply means there are large numbers of buyers who buy on price alone, and a large number who buy quality and brand reputation to the exclusion of most anything else. In the middle are most of the center console boat builders who try for a balance of price, quality, features, warranties, and customer service. If we charted the brands on a four-quadrant grid, in our opinion, the Hydra-Sports 2000 CC would be next to two or three other brands at the high-quality end of the low-priced cluster.

Price

Base Price

Prices, features, designs, and equipment are subject to change. Please see your local dealer or visit the builder's website for the latest information available on this boat model.
