

# Yamaha VX Cruiser (2015-)

## Brief Summary

The hull of the Yamaha VX Cruiser is molded from a composite called NanoXcel, which reduces the overall weight more than 60 pounds, delivering improved top speed as well as stronger acceleration with a given load. The company says the thermo-setting material is both denser and tougher, as well as lighter.

## Price

**Base Price**\$10299.00

*Prices, features, designs, and equipment are subject to change. Please see your local dealer or visit the builder's website for the latest information available on this boat model.*
