Builders Commentary

Fishing the shallows requires a sturdy boat that creates little to no disturbance in the water when drifting. We achieve this with the Carolina Skiff Shallow Water Series – flat-bottom boats available in 19 or 21 feet that are specifically designed to reach the best shallows in rivers, lakes and ponds. The SWS Series is known for its clean feed of undisturbed water to the prop while easily running with or without a jack plate. Additionally, the SWS Series boats are self-bailing, so when water gets onto the deck it automatically drains overboard. The self-bailing design utilizes gravity to pull any water toward strategically placed drainage points – keeping you dryer all day long. The SWS boats come loaded with angler-friendly features, including a quick-disconnect windshield for optimal maneuverability onboard, two live wells, a swim platform and a 70-quart removable cooler.
