Builders Commentary

Never one to rest on their laurels and following several years of speculation, Sunseeker announces the forthcoming launch of a brand new high-performance day boat – the Hawk 38. Sunseeker has returned to its performance roots to deliver an exciting and dynamic stepped hull in conjunction with Fabio Buzzzi Design, winner of 43 World Speed Records and 55 World Championships. Whilst the incredible design, features and equipment delivers ultimate day-boat appeal, its searing performance will ensure it's always first to the best anchorage or beach restaurant. With a choice of paint finishes and upholstery, it will also make the ultimate superyacht chase boat; no two boats are ever likely to be the same.

Drawing on the company's racing heritage, the new high-performance model will be capable of a leisurely 70mph (62kts) 'out of the box' with standard twin Mercury 400R outboards mated to Mercury Racing *Digital Zero Effort* throttles. The hull has been optimized to take advantage of the latest outboard engine technology giving not only performance benefits but also low-cost maintenance for clients. Sunseeker has always dominated this area and will continue to do so with this technologically advanced cutting-edge new model.

Standard Features

- Brand new performance stepped hull from 'Fabio Buzzi – Powerboat world champion'.
- Twin Mercury Verado 400R Race engines.
- Gear Case mode: Sports Master.
- Beautifully sculpted Carbon Fibre Hard Top with Carbon weave on show behind a clear lacquer with compound curvature glass front screen.
- Boat in a choice of solid painted colors with the option of metallic paint.
- Inflatable STAB (stabilizing tubes) keeping the boat performing transversely by giving additional stability and a dampening effect underway.
- Four upholstered hydraulically cushioned Besenzoni race seats with electric swab bases.
- Day head compartment with 12V toilet, stainless steel washbasin and cold water tap.
- Simrad 16" Navigation display. GPS. VHF with a black antenna. In-hull depth transducer.
- Ergonomically designed console station. Incorporating carbon effect console panels. Storage pockets and cup holders, USB charging, horn.
- Smart adjustable steering wheel with function buttons to control the Simrad navigation.
- Mercury Verado dual-engine Hydraulic Power Steering.
- Mercury VesselView Link interfaces for engine data to display via an App on the Simrad display. Taco, Eng Temp, Pressure. Engine Alarms. Fuel Tank level. Engine Battery Voltages.
- Mercury Zero Effort Digital Engine Controls. Separate throttle and shift levers resulting in smooth shifting and instant throttle response. Integrated throttle handle trim switch.
- Mercury Active Trim. Race version controlled through the Simrad display. GPS-based Intuitive Active Trim system increases fuel economy and makes boating easier and more enjoyable by providing instant and effortless automatic outboard trim.
- Mercury Theft Deterrent System (TDS). Improves boat and engine security and provides owner ease of mind by allowing you to immobilize the engine if someone starts the engine without inserting the fob.
- Mercury Moving Propeller Alert (MP) Designed to provide additional notice to swimmers that the boat's engine has been started and that the propeller is in motion.
- Composite decking for cockpit floor, platform and heads compartment.
- Six stainless steel retractile mooring cleats.
- Carbon fibre handrails.
- Retractable stainless steel bathing ladder with grab handles.

- In-hull stowed stainless steel ultra-high holding power Anchor with stainless steel anchor chain and rope. Electric anchor windlass below anchor lid.
- Cockpit AM/FM Radio with Airplay and Bluetooth. Four 7.7" marine speakers behind stainless steel grills with power Amplifier and integrated chart plotter control, foredeck remote control. Black FM antenna.
- LED navigation lights with anodised black aluminium body's.
- LED colour changing strip lighting with a keyfob remote control.
- Port and starboard engine battery and two domestic batteries. Marine AGM maintenance-free sealed deep cycle.
- Battery Charger and shore power input with cable.
- CZone 12V DC solid-state digital switching electrical system interfaced with the Simrad display and independent 5" CZone Screen in Day Head. Giving status boats electrical control, status and alarms.
- Stainless steel fuel tanks 700 litres.
- Stainless steel freshwater tank 85 litres.
- Stainless steel black water tank 50 litres.
- Hand held rinse off cold water shower.
- Bow sunbather with cup holders and headrest. Large storage locker below.
- Foreword cockpit seating group with stowage below and large sole locker.
- Bench seat aft of the race seats with a removable centre section for stern access.
- Protective covers for all seating, sunbed and console cover.
